IMPORTANT MESSAGE TO OUR FRIENDS IN THE TRADE

We are enclosing our latest price list on Gladiolus Bulbs, corrected to date. Many sizes and varieties are already sold out, so destroy previous lists and use this list during March.

These Gladiolus prices are in effect only during March and we advise immediate shipment. If you mention second choice when ordering, it will help us handle your order promptly, saving refunding on items already sold and making extra correspondence unnecessary.

Packing supplies on hand are sufficient for March and we have every reason to believe that if you order now we can take of your order. No orders will be booked for shipment later than April 1st for several reasons:

1. We believe prices will advance--and they should on account of the rising costs of labor, shipping supplies and general overhead expenses.
2. We are very short handed for help. April and May are very busy months and many items we grow can be shipped only during these two months. We must take care of perishable plant materials when they are in best condition to ship.
3. We are growers only and our first duty, as we see it, is to plant our seed and planting stocks early when they should be planted.

Production is more necessary now than it has ever been before. We cannot increase acreage because of the shortage of trained help. Most of our former male employees are either in the army or working on Defense jobs at three times the wages a farmer can pay. We intend to carry on and maintain the dependable Hunter Quality Gladiolus Bulbs you have so long been accustomed to.

As has been our custom for twenty-four years, we solicit your Gladiolus Bulb business. We are ready to quote prices for Fall 1942 delivery, but only on definite want lists from reliable customers.

Cut flowers will bring good prices this summer. Plant all you can take care of, but remember five acres well grown is more profitable than fifty acres poorly handled.

This is a good year to be self-reliant and grow your own flowers. There will be fewer trucks calling on you and delivering surplus flowers than in a long time. Be sure you have the Gladiolus bulbs you need. Order today from HUNTER while present low prices are still in effect.

IMPORTANT MESSAGE TO OUR FRIENDS IN THE TRADE

We are enclosing our latest price list on Gladiolus bulbs, corrected to date. Many sizes and varieties are already sold out, so destroy previous lists and use this list during March.

These Gladiolus prices are in effect only during March and we advise immediate shipment. If you mention second grade when ordering, it will help us handle your order promptly, saving returning on items already sold and making extra correspondence unnecessary.

Packing supplies on hand are sufficient for March and we have every reason to believe that if you order now we can ship your order. No orders will be booked for shipment later than April 1st for several reasons:

1. We believe prices will advance--and they should on account of the rising costs of labor, shipping supplies and general overhead expenses.

2. We are very short handed for help. April and May are very busy months and many items we now can do shipped only during these two months. We must take care of profitable plants at this time when they are in best condition to ship.

3. We are growing only one lot this year, as we see it, is to plant our seed and planting should only when they should be planted.

Production is more necessary now than it has ever been before. We cannot increase because of the shortage of trained help. Most of our former help employees are either in the army or working on Defense jobs at three times the wages a farmer can pay. We intend to carry on and maintain the dependable Hunter quality Gladiolus bulbs you have so long been accustomed to.

As has been our custom for twenty-five years, we collect your Gladiolus bulb business. We are ready to quote prices for 1942 delivery, but only on bulbs we want lists from reliable customers.

Our flowers will bring good prices this year. Plant all you can take care of, but remember live nerves will grow in more profitable than fifty acres poorly handled.

This is a good year to be self-reliant and grow your own flowers. There will be fewer trucks sailing on you and delivering surplus flowers than in a long time. Be sure you have the Gladiolus bulbs you need. Order today from HUNTER while present low prices are still in effect.
